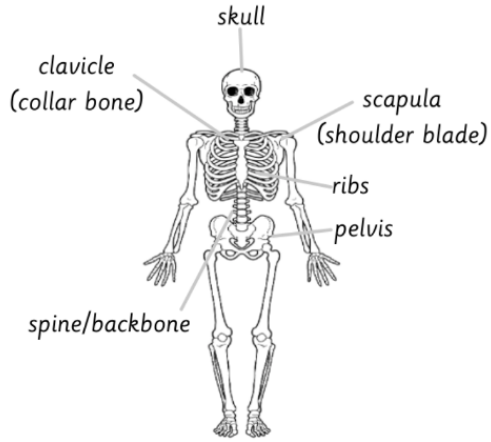
The Wonderful World of Me!

Key Question:

What makes me, me?

We will play lots of games to identify human body parts, such as 'Simon Says', and use the basic and more advanced terminology interchangeably.



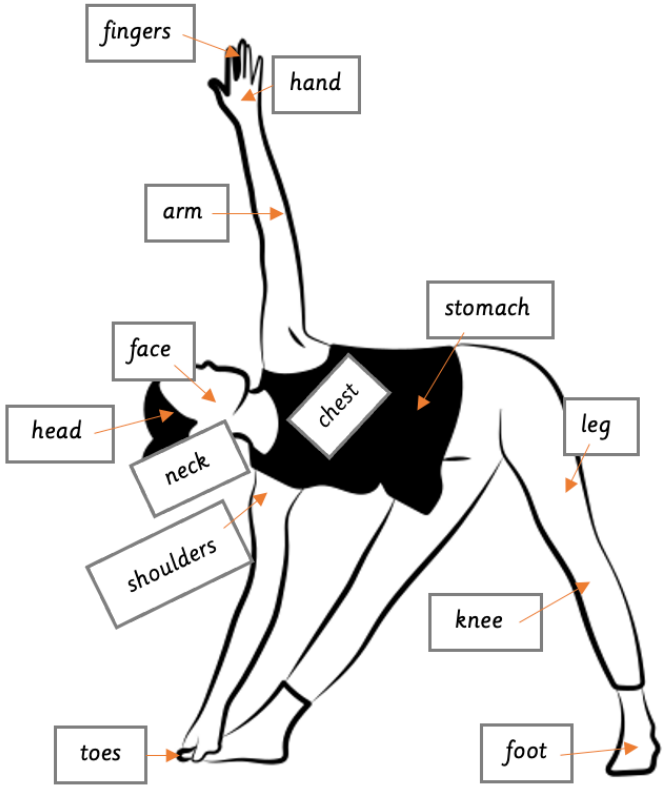
Our knowledge organiser is based on our science learning for this half-term where we will be learning to identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.

Senses are things that happen in our body to tell us about the world around us. We have 5 senses:

1. We use our eyes to see.

2. We use our nose to smell.

3. We use our tongue to taste.

4. We use our ears to hear.


5. We use our skin to touch.
